- MySQL

Projects

- **Bronzer Kitchen**
Check it out here 🖱️ bronzainterio.com

Bronzer Kitchen is a beautifully crafted website that showcases elegant and modern interior design solutions. This project demonstrates my expertise in front-end development(React.js) and interactive web experiences.

◆ Key Features:

- ~**Stunning Visual Design** – Aesthetic and sleek UI for an immersive browsing experience.
- ~**Smooth Animations & Transitions** – Powered by GSAP & Framer Motion for engaging interactions.
- ~**Responsive & Mobile-Friendly** – Optimized for all devices, ensuring seamless usability.
- ~**Showcase of Interior Design Projects** – High-quality images and detailed descriptions of completed projects.
- ~**Contact & Inquiry Forms** – Easy-to-use forms for client engagement.
- ~**Performance Optimized** – Fast-loading and SEO-friendly design for a superior user experience.

This project highlights my ability to bring creativity and functionality together, delivering a website that not only looks premium but also provides a seamless user experience.

- **Portfolio Website**
Check it out here 🖱️ <https://pramaynandoriya.netlify.app/>

This portfolio website is a showcase of my skills, projects, and expertise as a Front-End Developer. Designed with a clean and modern UI, the site highlights his proficiency in React.js, JavaScript, CSS, and animation frameworks like GSAP and Framer Motion.

◆ Key Features:

- ~**Smooth Animations & Transitions** – Leveraging GSAP & Framer Motion for an engaging user experience.
- ~**Responsive Design** – Fully optimized for desktops, tablets, and mobile devices.
- ~ **Projects Showcase** – A section featuring real-world projects, demonstrating expertise in front-end development.
- ~ **Tech Stack Integration** – Built using modern frameworks like React.js, Tailwind CSS, and JavaScript.
- ~ **Interactive UI Elements** – Scroll effects and micro-interactions enhance usability.

- **Video Sharing Web-app With Ms Azure**

I built a dynamic and scalable video-sharing web application using Microsoft Azure services, ensuring seamless video uploads and user management. This project showcases my expertise in front-end development and cloud-based data storage.

~**Tech Stack:** HTML, CSS, JavaScript, MS Azure

~**Storage:** Azure Blob Storage (for videos) & Cosmos DB (for user data)

~**Features:**

1. User Registration & Login (Stored in CosmosDB)
2. Secure Video Upload & Retrieval (Blob Storage)
3. Hashtags & Descriptions for Content Categorization

- **Real-Estate**

I developed a real estate website using React.js, as a freelance project. The goal was to create an engaging platform that elegantly showcases property listings while maintaining top-tier performance and responsiveness.

- ◆ **Key Highlights:**

- ~ **Seamless Animations & Transitions** – Used GSAP & Framer Motion to enhance user interaction with smooth effects.

- ~ **Visually Structured Property Listings** – Displaying real estate properties in an organized, easy-to-browse format.

- ~ **Effortless Navigation** – Designed an intuitive interface that ensures a hassle-free browsing experience.

Experience

- **Evri**

Warehouse Specialist

March-2025 -

- **Bronzer-Intrio**

React.js Developer

1-February-2025 - 25-February-2025

- <https://www.bronzerinterio.com/>

Developed a responsive business website using React.js along with MUI and Web3Forms implementation.

The project included Motion.js animation implementation and modern web design practices according to best standards.

I implemented deployment and web hosting solutions to ensure a smooth operation with quick performance.

- **Amazon Logistics**

Warehouse Operative

November-2024 - January-25

Knowledgeable in conducting inductions, picking,

loading and unloading, packing, storing, and

addressing operational problems. committed to

making sure that warehouse operations run smoothly, accurately, and efficiently in order to fulfil deadlines and sustain high levels of production.

- **Yrhp Software**

React.js Developer

July-2022 - July-2023

I developed and maintained responsive web applications using React, Redux, TypeScript, Tailwind CSS, Sass, Bootstrap, and MUI.

I used GSAP to add engaging animations and focused on delivering clean, scalable UI components.

After 6 months, I was promoted to Team Leader, where I mentored junior developers and oversaw project execution using Git and JIRA.

I also handled client communication, gathering requirements, providing regular updates, and ensuring timely delivery of features.

Objective

I am a dedicated and creative Front-End Developer with 1 year of professional experience, currently pursuing a Master's in Computer Science. I've successfully developed modern, responsive websites using React.js, Redux, TypeScript, Tailwind CSS, Sass, MUI, Bootstrap, and GSAP. Beyond my full-time role, I've also worked with multiple companies on freelance or project-based contracts, delivering complete front-end solutions and receiving official certifications for my contributions. With proven leadership skills, real-world experience, and a strong academic foundation.
