Summary

- Front-End Developer with 1 year of experience and 10+ completed projects for clients and companies. Specialized in building responsive, high-performance web applications using React.js, Redux.js, JavaScript, and animations with GSAP and Framer Motion.

Skilled in HTML, CSS, SASS, Tailwind CSS, Bootstrap, Node.js, MongoDB, MySQL, and REST API integration. Experienced with Git, Postman, Firebase, Microsoft Azure, Docker, JWT, and OAuth.

Currently seeking internship or part-time roles as a Front-End or Full-Stack Developer to contribute to innovative teams and continue growing my technical expertise.

Education

- **Ulster University** 09/2024 - Present
Msc Computer Science And Technology
- **Veer Narmad South Gujarat University** 07/2019 To 07/2022
Bachelor Of Computer Application
First Class

Skills

- Programming Languages: JavaScript, Python
- Frameworks: React.js, Redux.js, Gsap, Framer Motion, Scss Css, Tailwind Css, Bootstrap
- Database: Node.js, MongoDB, Mysql
- Cloud: Ms Azure, Firebase Authentication
- Tools: Git, GitHub, Postman, Vscode, Web3forms, Jira, JWT, Oauth, Docker
- Other: Responsive Design, Web Hosting ,QA, Testing

Experience

- **Bronzer Intrio** 17/01/2025 - 02/02/2025
Frontend Developer
Bronzer Interio Website : <https://www.bronzerinterio.com/>
Front-End Developer | React.js, Material UI, Framer Motion, W3Forms, Vercel
 - Developed a fully responsive website using React.js and Material UI to ensure modular, consistent design.
 - Implemented smooth, interactive animations with Framer Motion to enhance user experience.
 - Integrated W3Forms to manage client queries and streamline form submissions efficiently.
 - Managed deployment on Vercel with continuous integration for fast, reliable updates.
- **Amazon Logistics (Part time)** 09/11/2024 - 04/01/2025
Warehouse Operative
Key Skills: Warehouse Operations, Team Induction, Picking & Packing, Problem-Solving, Time Management, Health & Safety

- Conducted team inductions and supported new employees to ensure smooth onboarding aligned with Amazon's operational standards.
- Efficiently handled picking, packing, loading, unloading, and storage of goods to maintain workflow and meet strict shipping deadlines.
- Identified and resolved operational challenges proactively, reducing downtime and improving process flow.
- Maintained high levels of accuracy, organisation, and adherence to health and safety protocols to ensure effective warehouse operations.

- **Yrhp Software**

01/07/2022 - 31/07/2023

React.Js Developer

Tech Stack: React.js, Redux, TypeScript, Tailwind CSS, GSAP, REST APIs

Duration: 1 Year

- Developed responsive, interactive user interfaces using React, Redux, TypeScript, Tailwind CSS, and GSAP for multiple client projects.
- Integrated RESTful APIs to ensure seamless data exchange between frontend and backend systems.
- Promoted to Team Lead within 6 months; mentored junior developers, managed task allocation, and maintained project schedules.
- Led the delivery of 10+ web applications, focusing on clean code, design consistency, and performance optimization.
- Participated in QA processes, resolving bugs and enhancing application stability.
- Liaised directly with clients to gather requirements, provide progress updates, and align deliverables with expectations.

Projects

- **Luxora**

- E-Commerce Website (In Progress)

Role: MERN Stack Developer

Tech Stack: React.js, Redux.js, MUI, Bootstrap, Express.js, MongoDB, Firebase, Azure, Vercel

- Designing a modern, responsive e-commerce platform focused on intuitive navigation and seamless shopping experience.
- Building the frontend using React.js, Redux.js, MUI, and Bootstrap for structured layout and cross-device compatibility.
- Developing backend with Express.js, MongoDB, and integrating Firebase and Azure services for authentication and scalability.
- Hosting the application on Vercel with ongoing implementation of advanced shopping features.
-

- **Bronzer Interio**

- **Bronzer Interio** – Kitchen Chimneys Website

Role: Front-End Developer |

Visit : bronzerinterio.com

Tech Stack: React.js, Tailwind CSS, GSAP, Framer Motion, W3Forms

- Built a visually engaging, mobile-first website tailored for a kitchenware brand, emphasizing style and usability.
- Leveraged GSAP and Framer Motion to craft lively animations and dynamic transitions that enriched user interaction.

- Used W3Forms to seamlessly handle contact form functionality, ensuring smooth communication between users and the client.
- Focused on performance-driven development with minimalistic design, rapid loading, and intuitive navigation across desktops, tablets, and smartphones.

- **Video Sharing Web-App with Ms Azure**

- **Short Reels Platform** – Full Stack Application

Role: Full-Stack Developer

Tech Stack: HTML, CSS, JavaScript, Azure Blob Storage, Azure Cosmos DB

- Developed a video-sharing web application allowing creators to upload short reels with hashtags.
- Implemented user interaction features including commenting, liking, and sharing functionalities.
- Utilized Azure Blob Storage for media handling and Cosmos DB for storing user, login, and creator data.
- Built as a final project for master's coursework to showcase applied cloud computing knowledge.

- **Real Estate**

- **Real Estate Property Listing website**

Role: Front-End Developer

Visit : r-estatedemo.netlify.app

Tech Stack: React.js, GSAP, Framer Motion, REST APIs

- Developed a dynamic real estate platform with organized property listings and smooth user navigation.
- Integrated GSAP and Framer Motion to create engaging UI animations and transitions.
- Utilized external APIs to display property data and enhance user interaction.
- Designed for responsive performance across desktop and mobile devices.

- **Tour And Travelling**

- **Full-Stack Web Application** – Final Year Project

Role: MERN Stack Developer

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, CORS

- Built a scalable, full-stack application using the MERN stack as part of a final-year academic project.
- Developed dynamic UI with React.js and implemented efficient RESTful API communication with Express.js and MongoDB.
- Applied CORS middleware for secure data access and enhanced frontend-backend integration.
